Petrak & Associates, Inc. provides our clients the professional, honest and high level third party reimbursement consultation services they demand. The firm is made up of only three professionals who each have over 24 years of experience in the Medicare / Medi-Cal reimbursement field. All client work is handled by a professional without any juniors on staff. This provides the client with a high level of assurance that the project will be accurate, completed on time and in compliance with Federal and State regulations. Also having only three professionals allows us to keep the fee for our services at a very competitive level compared to other healthcare consulting firms.
